

Said Mustaf Ahmed

Mogadishu, Banadir, Somalia

(+252)-615189112

smustafahmed@gmail.com

PROFESSIONAL SUMMARY

Civil Engineer with strong experience in water, sanitation, infrastructure, construction supervision, contractor coordination, and logistics. Proven ability to support and supervise engineering works, coordinate construction activities, manage suppliers and site requirements, and ensure compliance with technical, safety, and quality standards. Skilled in AutoCAD, BoQ preparation, technical reporting, field assessments, payment documentation, and stakeholder coordination. Detail-oriented and committed to delivering effective engineering and humanitarian projects in challenging environments. Fluent in Somali and English.

PROFESSIONAL EXPERIENCE

KAMAAL ENGINEERS LIMITED

Mogadishu, Somalia

Site Engineer

November 2024– January 2026.

- Supervise daily construction activities, ensuring adherence to design specifications and quality control standards.
- Conduct regular inspections and quality checks to ensure the highest standards of work.
- Conduct field inspections and verify contractor work quality, reducing defects by 2%.
- Supervise Construction workers, subcontractors, and suppliers to ensure adherence to project plans and safety standards.
- Assist in measuring completed work quantities and prepare reports for payment certifications.

DELTA ENGINEERING & CONSULTANT LIMITED

Mogadishu, Somalia

Site Engineer & Construction Coordinator

January 2026– Present.

- Supervise daily construction activities, ensuring adherence to design specifications and quality control standards.
- Coordinate logistics for construction activities, ensuring timely availability of materials, equipment, labour, and other site requirements.
- Coordinate with suppliers, contractors, and site teams to support smooth and uninterrupted construction operations.
- Prepare and process payments related to construction activities, including supplier, labour, and service payments.
- Maintain records of material deliveries, purchases, payments, and other construction-related logistics.
- Monitor material and equipment requirements and coordinate procurement and delivery to construction sites.
- Support project teams with administrative and logistical arrangements to ensure construction activities remain on schedule.
- Track logistics costs and assist with documentation, verification, and reporting of construction-related expenditures.

EDUCATION

City University of Somalia

Mogadishu, Somalia

Postgraduate Diploma in Architecture and Urban Design, August 2026

Benadir University

Mogadishu, Somalia

Bachelor of Science in Civil Engineering, May 2024

TRAINING AND WORKSHOPS

- Construction Management Specialization _Columbia University Through Coursera
- Sustainable Cities Specialization _ Johns Hopkins University Through Coursera
- Construction Management Fundamentals _ University of Maryland Through Coursera
- Health Safety and Environment Specialization _ Khalifa University Through Coursera
- WASH Program jointly organized by SIWES and DEERO Academy
- Water safety planning for urban water supply systems – an introduction from WHO
- Principle of Engineering from King's College London at Future Learn Website
- IWRM integrated water resource management for climate resilience from Cap-net Virtual Campus
- Understanding climate change from Yali Network
- Introduction to climate change from CARE Climate & Resilience Academy
- BSAFE course from United Nations Department of Safety and Security (UNDSS)
- Building Construction Process from A to Z Training From Somali Engineering practical center

LANGUAGES

- Somalia : Native
- English : Advanced
- Arabic : Intermediate

ADDITIONAL SKILLS

- Civil Engineering & Construction Supervision
- Quality Control & Site Monitoring
- BoQ Preparation & Quantity Surveying
- 3D Visualization & Design for Infrastructure Projects
- Needs Assessment & Survey Analysis
- AutoCAD & Engineering Software Proficiency
- Report Writing & Technical Documentation
- Microsoft Office Suite (Excel, Word, PowerPoint)
